Compact Disc of the Month
December 2009

Sting
If on a Winter's Night...
CD 783.65 S859i

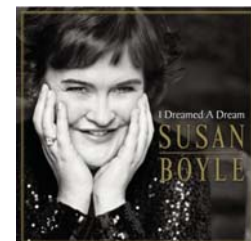

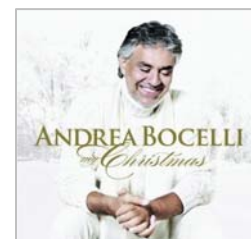

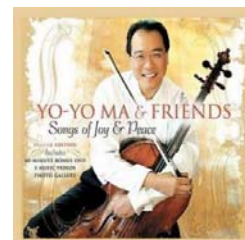

This month, we highlight Music for the Holidays. For centuries, the winter season, along with its religious holidays, has inspired countless singers and songwriters to produce a wealth of music exploring all of its many guises. Whether it be traditional carols, sacred music, or popular favorites, music always makes this season all the more special.

In keeping with the joyous tone of the season, one highlight to our CD collection is the latest album by singer/songwriter, Sting, entitled, If on a Winter's night... This album is dedicated to Sting's favorite season of the year – winter. Presented here is a wide selection of songs that conjures the season of spirits, resulting in a haunting, spiritual and reflective musical journey. "The theme of winter is rich in inspiration and material," comments Sting; "by filtering all of these disparate styles into one album, I hope we have created something refreshing and new."
